LEADING MANUFACTURER OF CAM UNITS AND SLIDING ELEMENTS

Our sector-specific expertise and our knowledge of the manufacturing processes of our customers have established us as a reliable partner to renowned companies in the automotive and mechanical engineering industries. We provide our customers with innovative products and high-quality service.

WORLDWIDE CUSTOMER SERVICE AND PRODUCT AVAILABILITY

The headquarter of Lacher Camtec is located in Frankenmarkt, Austria. Our international locations, subsidiaries and investment in other companies make it possible for us to flexibly respond to your needs and provide high-quality services at your specific location.

Our team of technical specialists is dedicated to providing effective solutions worldwide. They will be happy to answer your questions at any time. Our state-of-the-art sliding elements and technologies, spare parts management, rapid response times and comprehensive services place us one step ahead.

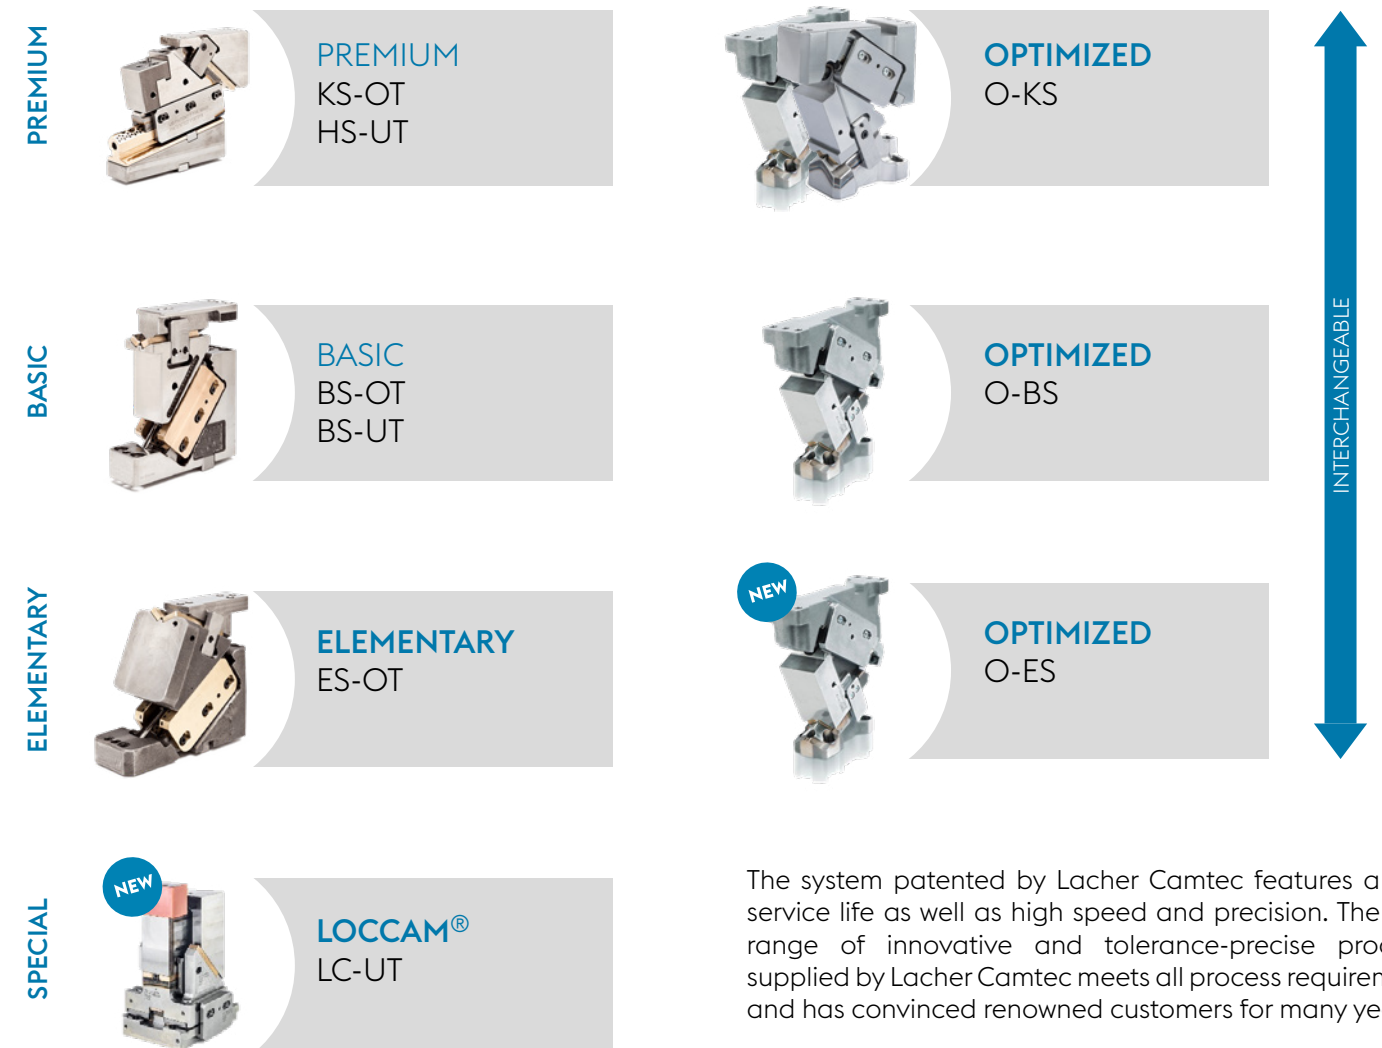

24-48 HOURS REPLACEMENT SERVICE IN CASE OF IMMINENT EMERGENCIES (CRASHES)

Our dedicated warehouses in Frankenmarkt, Traun, Canada and China can react quickly to orders within 24 - 48 hours in the event of incidents involving machine downtime.

Our international team of experts remains at your service. Find your contact partner online at www.lacher-camtec.com or contact us at sales@lacher-camtec.com

PREMIUM PORTFOLIO CAM UNITS

Our standard cam units are used to punch, cut and form sheets and plates. Please find below our models at a glance:

The system patented by Lacher Camtec features a long service life as well as high speed and precision. The wide range of innovative and tolerance-precise products supplied by Lacher Camtec meets all process requirements and has convinced renowned customers for many years.

YOUR ADVANTAGES

- Long lifetime through Lacher Camtec concept & prism guidance
- Compactness: Low space requirements in the tool
- High force transmission due to high shouldering, thus smaller cams possible (cheaper) & more strokes possible
- High retraction forces
- Therefore no blank holder required (10% of the workforce)
- 24-48 hours emergency stock
- Special cam units – many individual solutions possible

For more information about our cam units please visit our website www.lacher-camtec.com or contact our experts: sales@lacher-camtec.com

PREMIUM PORTFOLIO MAINTENANCE-FREE SLIDING ELEMENTS

For long service life and high precision: We provide ready-to-install sliding elements and bushings in a wide variety of designs. Our sliding elements are available in the materials WF750, Steel and Sinter.

Bushings
with/without flange,
with buffer flange

Washers

Wear plates

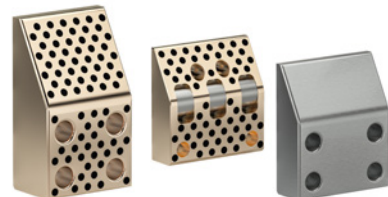

Cover plates

Plain wearstrips
L-Gibs

Multiple area guiding
stripes

Cam stroke plates
with/without roller

Prism guide

Guide bars
Rectangular guide block
Lockings

Spring ball plungers,
Flange lifter, Spring bolt,
Centering units,
Bolt guides

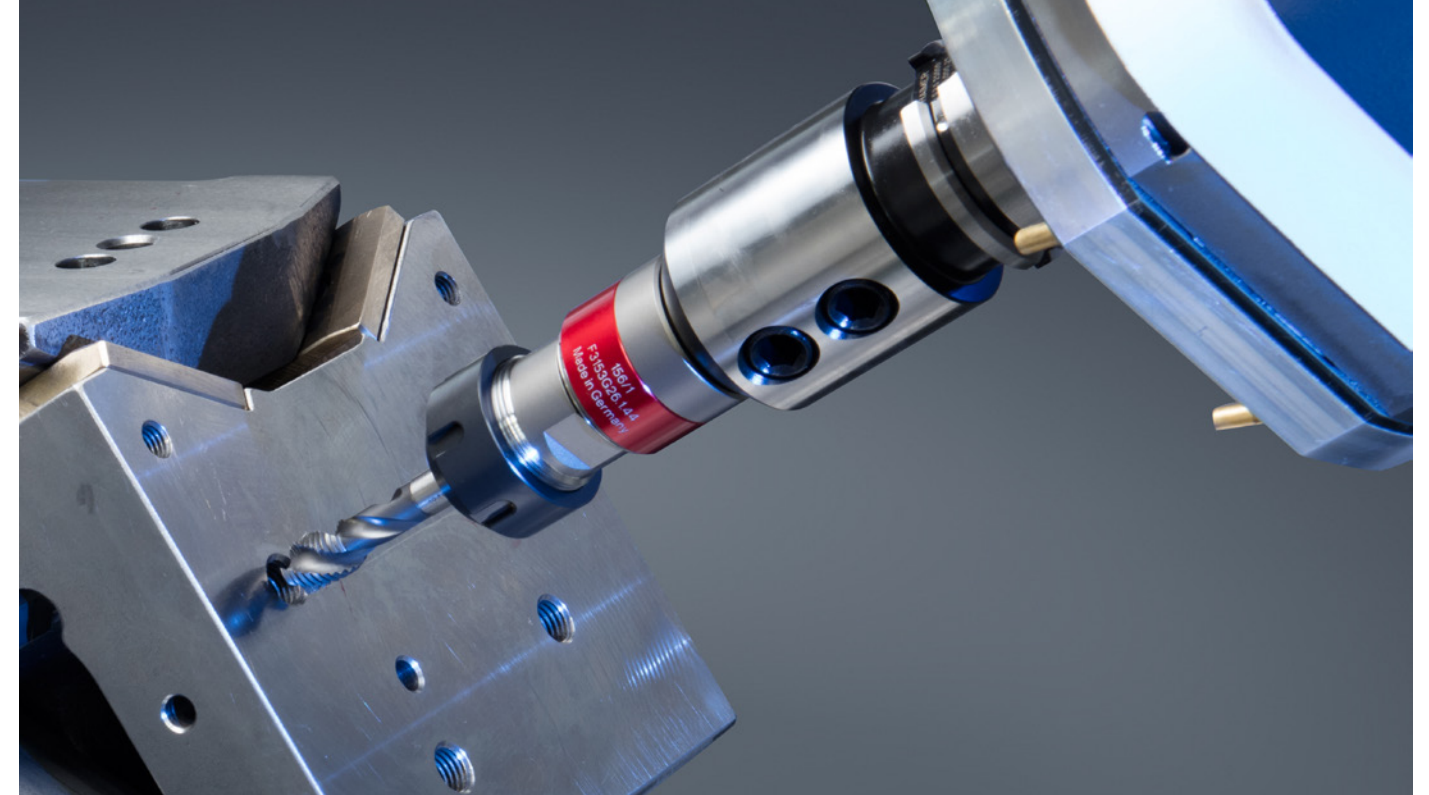

Guide posts
Trunnions

YOUR
INDIVIDUAL
SOLUTION

High-precision and maintenance-free slide elements made by Lacher Camtec GmbH primarily find their applications in the automotive and mechanical engineering industry.

You need an individual solution? No problem - please contact our experts: sales@lacher-camtec.com

INDIVIDUAL SOLUTIONS

SPECIAL CAM UNITS / SPECIAL SLIDING ELEMENTS

We offer individually designed special cam units or sliding elements according to your needs. By submitting your desired modifications to our engineering department, we figure out solutions to solve your problem by modifying the cam. The result is a space and time saving solution for your die.

PRE-MACHINING SERVICES

Lacher Camtec can provide custom machining to the cam unit prior to shipping. We would utilize your CAD info to input threaded holes, pre-drill bore holes, custom milling or even mount trim steels or forms onto the cam face. This is a great benefit and saves customers days of preparation when cams arrive prior to mounting the cams on the die assembly.

LONG-TERM PRICE ADVANTAGES

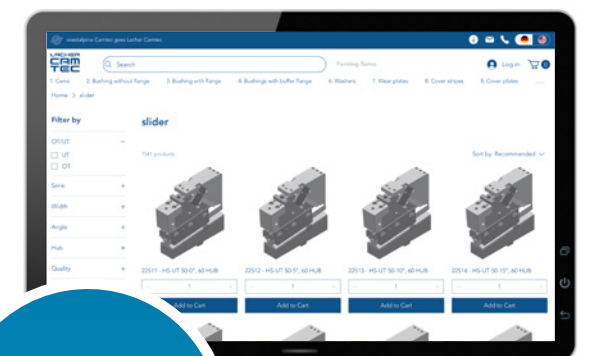

Considering our high-quality products, you gain a price advantage in the long-term. We guarantee at least 1,000,000 strokes on our premium products (O-KS, KS-OT and HS-UT) which leads to less interruptions in production and prevents from costly cam breakdowns.

FIND YOUR SOLUTION QUICKLY, EASILY AND SYSTEMATICALLY

With respect to design, ordering and spare parts management, you will quickly and easily find detailed product information in our download center:
